INTRODUCTION

Why a profile of women's colleges? The answer is quite simple: to fill a void. Most groups within the higher education community can document and evaluate their performance according to a number of variables across a wide range of issues. Women's colleges, however, have only rarely been identified as a separate reporting category by the major education data gatherers of either the public or the private sector. Consequently, while there has been in recent years a growing interest in the learning and working environment provided to women at women's colleges, there has been no increasing capacity to document and describe that environment.

In response, the Women's College Coalition project of the Association of American Colleges has assembled this first Profile of Women's Colleges to provide basic descriptive data for the nation's undergraduate colleges for women. The data were acquired from the major education data collectors with women's colleges being disaggregated from the larger samples. The prime sources of data include the National Center for Education Statistics (NCES) whose HEGIS survey was a chief resource; the Council for Financial Aid to Education (CFAE); the American Council on Education (ACE); the National Institute of Independent Colleges and Universities (NIICU); and the Cooperative Institutional Research Program (CIRP). Although this first volume is meant to provide primarily descriptive data limited to the group of women's colleges, comparative data have also been included where they proved easily available.

The Profile is the first in a series of publications to issue from a two-year data collection project undertaken by the Women's College Coalition, with support from the Ford Foundation. Forthcoming publications include an analytical companion volume to this Profile as well as several topical research reports and a second Profile.

Many people deserve thanks for their support and contributions to this first Profile of Women's Colleges. Among them are: Mariam Chamberlain of the Ford Foundation, without whose sensitivity and active encouragement this project would not have been possible; Martha Church, President of Hood College and Chair of the Women's College Coalition Data Collection Project Advisory Committee, who has skillfully guided the project from its inception; Rhoda Dorsey, President of Goucher College and Chair of the Women's College Coalition; and the members of the Data Project Advisory Committee -- Sr. Judith Cagney, President of Barat College; Carol Frances, Chief Economist of the Economics and Finance Unit of the American Council on Education; Jacquelyn Mattfeld, President of Barnard College; and Jeanne Block, Research Psychologist at the University of California, Berkeley.

Special thanks are due as well to those who donated their time, resources, and expertise to the project. Chief among these are Virginia Fadil, Director of Research at NIICU, and Paula Knepper, Director of Statistical Research at the American Council on Education. Finally, we wish to make note of those researchers in the educational community who have taken care

to report data for women's colleges within the context of the larger educational community. These include: Suzanne Howard of the American Association of University Women whose thoughtful report "But We Will Persist" is highly recommended; the Council for Financial Aid to Education, which has consistently reported data for women's colleges in its annual reports on "Voluntary Support of Education"; Virginia Fadil, again, at NIICU, whose sensitivity to the women's colleges is reflected in her report, "1979 Fall Enrollment at Independent Colleges and Universities"; Marie Eldredge at NCES, under whose leadership a series of special reports on various aspects of women's colleges is now being prepared by NCES staff; and Elizabeth Tidball, whose sustained research on women's colleges has done so much to focus attention on the importance of studying these particular institutions.

II. A LIST OF WOMEN'S COLLEGES AND UNIVERSITIES

WOMEN'S COLLEGES AND UNIVERSITIES OF THE UNITED STATES

The following is a list of 117 women's colleges and universities in the United States. The list is based on data collected by the National Beta Club (Spartanburg, South Carolina), and published in their College Facts Chart 1979-80. This list has been corrected and updated by the Women's College Coalition.

For the purposes of this study, any institution is classified as a college for women if the institution chooses to identify itself in its catalogue or other materials and mission statements as a women's college.

In the interest of presenting data on comparable institutions, this list does not include institutions for women "organized as profit making" (of which there are 6). Nor does the list include teacher preparatory colleges or seminaries (of which there are 11). For reference purposes, both groups are listed below.

FOR PROFIT INSTITUTIONS FOR WOMEN:

Berkeley Claremont School at Hicksville (NY)
The Berkeley School (NY)
Katherine Gibbs School (MASS)
Katherine Gibbs School (NY)
Kings College (NC)
The Wood School (NY)

TEACHER PREPARATORY COLLEGES OR SEMINARIES:

Associated Beth Rivkah Schools (NY)
Assumption College for Sisters (NJ)
Ayeleleth Hashachar Teacher's Seminary (NY)
Bais Yaakov Seminary (NY)
Beth Jacob Hebrew Teachers College (NY)
Holy Family College (CA)
Long Island Seminary of Jewish Studies for Women
Mt. Sacred Heart College (CT)
P'nimia Teachers College (NY)
Rika Breuer Teachers Seminary (NY)
Sara Schenirer Teachers Seminar (NY)

NOTES

ENROLLMENT is total headcount.
LEVEL OF SCHOOL is defined as follows: JUNIOR - 2 year programs; SENIOR - 4 year programs; SR/GRAD - those schools offering undergraduate as well as graduate degrees.
SESSION PLAN is defined as follows: QTR - quarter; Sem - semester; Tri-trimester; T-terms; Ss - summer school.
Affiliation and Degrees Offered are represented on the chart as each college responded to the National Beta Club questionnaire.
NUMBER of Teachers should be used carefully, as it is unclear whether colleges consistenty reported HDCT faculty or whether this column mixes FTE faculty statistics.

*colleges defined as Catholic were based on a list provided by the Nevlan project of ACCU and include all those institutions with an historic connection with the Catholic Church. This list does not necessarily correspond to the HEGIS differentiation between independent and church affiliated institutions.

IV. STUDENT CHARACTERISTICS

CHARACTERISTICS AND ATTITUDES OF 1978-79 FRESHMAN WOMEN

The following tables show attitudes and characteristics of 1978-79 college freshmen as reported in the study "The American Freshman: National Norms for Fall 1978," directed by Alexander W. Astin of the Cooperative Institutional Research Program of the Graduate School of Education at the University of California at Los Angeles, and sponsored by the American Council on Education.

The data are based on responses from full-time freshmen entering approximately 383 representative institutions for the first time in fall, 1978. The weighted national norms represent a total student population of 1,681,418, 51.1% of whom are women.

For further information regarding the methodology of the "National Norms", please consult the chapters on stratification and weighting procedures in the preface to Dr. Astin's 1978 report. Briefly, those data meeting minimal quality requirements for inclusion in the 1978 norms were differentially weighted to represent the population of entering freshman women at all higher educational institutions in the United States. The data on women's colleges, however, have not been weighted to represent the universe of women's colleges.

The data for women's colleges are based on responses from women students at [redacted] institutions included in the national sample. These institutions are:

Mount St. Mary's College
Scripps College
Colorado Women's College
Albertus Magnus College
Mount Vernon College
Agnes Scott College
Brenau College
Spelman College
Wesleyan College
Barat College
Mundelein College
Saint Mary's College

*colleges defined as Catholic were based on a list provided by the Naylan project of ACCU and include all those institutions with an historic connection with the Catholic Church. This list does not necessarily correspond to the HEGIS differentiation between independent and church affiliated institutions.

[1] *Technical Notes: Each of the percentages shown in the first three columns of this table reflects the year-to-year change in total voluntary support for a core group of institutions that participated in the Survey of Voluntary Support of Education in both of the two years indicated; the figures in parentheses are the numbers of institutions in these groups. The three-year percentage changes shown in the right-hand column were obtained by linking the three year-to-year changes for each class of institution.*

The reliability of these estimates of the percentage change in voluntary support between 1974-75 and 1977-78 varies from one class of institution to another. In general, the larger the number of institutions in each year's core group in relation to the total number of institutions in that class, the more reliable the estimate.

VII. APPENDIX

WOMEN'S COLLEGE COALITION

Suite 1003 1725 K Street, N.W. Washington, D.C. 20006 (202) 466-5430

The Women's College Coalition is a voluntary organization of 71 women's colleges nationwide. Members come from 23 states and the District of Columbia, and include public and private, independent and church-related, and two and four-year colleges.

Purpose The Coalition functions as an advocate and information resource for women's colleges. It is primarily concerned with examining ways in which women's colleges work within the education community to support the intellectual, professional and personal development of women today.

Through a research project supported by the Ford Foundation, the Coalition is working to develop a data base on the country's undergraduate colleges for women. The Ford project also supports the Coalition in functioning as a clearinghouse for research studies that have significant bearing on women's colleges, and as a repository of materials on women's colleges.

Topics of particular interest to the Coalition include: the role of women's colleges as resources on women and women's affairs; curricular focus on women/women's studies; the advancement of women in teaching, administrative and trustee positions; and the public policy concerns of women's colleges.

Organization The Coalition was founded in 1972 as a project of the Association of American Colleges. It is governed by an Executive Committee of nine member Presidents, headed by Dr. Rhoda M. Dorsey, President of Goucher College.

For Further Information Contact Marcia Sharp, Director, or Susan Nall Bales, Research Coordinator.

ERRATA

p. 77 — Sales and services of educational activities should read sales and services of auxiliary enterprises.

p. 68-69 — "Current Funds Revenues at Four Year Women's Colleges by Affiliation 1977-78" should read "Current Funds Revenues at all Four Year Liberal Arts I and II Women's Colleges by Affiliation 1977-78"; as should the expenditures table immediately following.

NOTE: For purposes of comparability, four year women's colleges (catholic and non-cathilic) presented in this chart are limited to those four year institutions classified as liberal arts colleges by the Carnegie Council on Policy Studies in Higher Education in A Classification of Institutions of Higher Education, 1976. The list excludes all comprehensive universities and colleges as well as doctoral granting universities. Data for these institutions are included in the charts on pages 66-67 and can be obtained as a separate table by contacting the Women's College Coalition.
